0.0 829 1.0.8 0:2140911:12365 (20180924) : The whole drawing in DXF will be reported (including comments, bookmarks and layers). Bug fixed: 1.0.8 0:2140911:12426 (20180924) : Added a new setting in DXF settings to allow the new Report Screen to be opened. In DXF settings select the button Open "Report screen" in DXF. 2.0.9 0:2046241:14078 (20180917) : new function "Drawing Pin"(also available via the keyboard Shortcut TAB) for fast displacement of your selected drawing. In the DXF file you must mark the Viewport corresponding to the position where you want to draw the Viewing Display. 2.0.9 0:2046241:14131 (20180917) : Bug fixed: 2.0.9 0:2046241:14432 (20180917) : If you want to see an overview of all the new functions available in the DXF-DWG import you can open the dxflib-app and open the DXF-DWG-help. You will find in the man-page (also available via the keyboard Shortcut F1) a lot of explanations about the new functions and other information. 3.0.9 0:1886555:13220 (20180920) : Optimized the DXF DWG import. 4.0.9 0:1886555:13519 (20180920) : New function: Import parallel the X.Y axis to the DWG File 4.0.9 0:1886555:13603 (20180920) : New function: Delete all the import-tables in the DWG File 5.0.9 0:1886555:13708 (20180920) : new function: Show Viewing Display in the next drawing window 5.0.9 0:1886555:13708 (20180920) : new function: Save Previous DXF File in the DXF File Explorer 6.0.9 0:1886555:13945 (20180920) : New function: Zoom in the selected drawing with mouse scroll. 6.0.9 0:1886555:13961 (20180920) : Optimized the DXF-DWG-import by using a more efficient algorithm in the 82157476af
